

EYFS

Explore the natural world

Describe their local environment

Think about life in other countries

Year 1

What do I know about the UK and where I live?

Why are some places in the world always hot and others always cold?

Why do we recycle?

Why do we like to be beside the seaside?

Year 2

In EYFS geography is embedded throughout the year using real life experience of geography and books

Year 4

Which are the important features of Europe?

What are biomes and how are they created?

Why is London the capital city of the UK?

How is a river formed?

Year 3

What are the unique features of the United Kingdom?

How different would my life be in South America?

What goes on at an airport and a train station?

In KS1 geography is taught to deepen understanding.

Year 5

What are the main differences between the Amazon Rainforest, the Lake District and Antarctica?

What are the main features of South America?

What creates a rainforest and why are they found where they are?

Why is climate change such an important topic?

Year 6

How do maps help us find our way around?

How and why have settlements changed?

How can you use your map skills to navigate a geographical area?

In KS2 geography is taught every term to ensure that key concepts are embedded and a balance of world and local geography is taught that deepens understanding of the subject.
